Our customers: car owners in Karachi who want their paint restored and protected, from a quick wash to a 5-year coating.

We need PKR 1,500,000 to start

Startup costs (PKR thousand)

Total startup money

PKR 1,500,000

Equipment is the biggest item (27%).

We keep PKR 300,000 in reserve so the business survives its first slow months.

Funded equally by the two partners

50%

Rao Daniyal Ahmed

PKR 750,000

50%

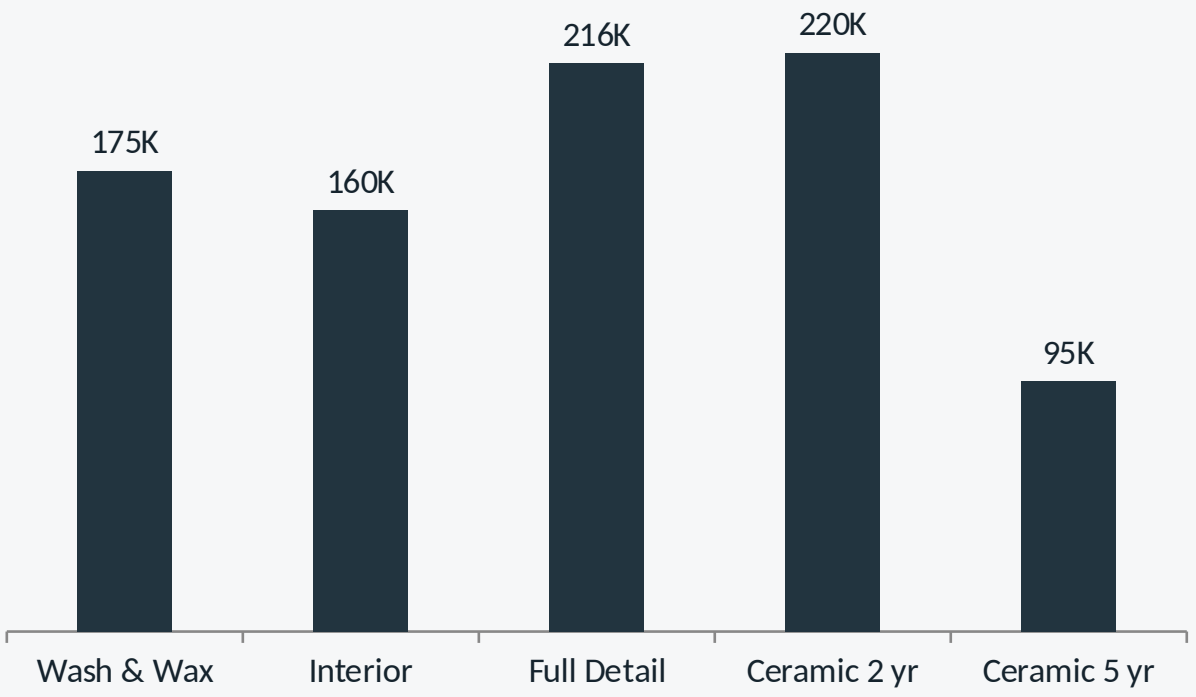

Abdullah bin Waris

PKR 750,000

Total: PKR 1,500,000. Profit is shared equally, about PKR 126,000 per partner each month, plus a PKR 50,000 salary each.

Monthly sales and expenses

Sales by service (PKR thousand)

Monthly expenses (PKR)

Materials and chemicals	206,000
Workshop rent	80,000
Salaries (5 people)	223,000
Electricity, water, gas	35,000
Marketing	40,000
Maintenance and other	30,000
Total expenses	**614,000**

Total monthly sales: PKR 866,000

Expected profit: PKR 252,000 a month

PKR 535,345

break-even sales per month

About 9 months

to pay back PKR 1.5M, including slow early months

Profit is before tax. Figures are estimates for a normal month at full volume.

International finance: the dollar risk

About 70% of our materials are imported and priced in USD, but our customers pay in PKR.

USD rate (PKR)	Dollar up by	Materials	Monthly profit
276.50	0%	206,000	**252,000**
304.15	+10%	220,420	**237,580**
331.80	+20%	234,840	**223,160**
387.10	+40%	263,680	**194,320**

Even if the dollar rises 40%, profit stays above PKR 194,000.

How we protect ourselves

- Buy 3 months of stock in bulk when the rate is favourable
- Review service prices every quarter
- Add local suppliers for basic chemicals
- Keep a cash reserve for rate shocks

How AI helped us

What Claude (AI) did

- Suggested business ideas
- Helped estimate costs and prices
- Structured the financial model
- Wrote the website code and this deck

What we did ourselves

- Chose the business idea
- Checked every calculation by hand
- Adjusted prices and costs to Karachi
- Learned to explain every number

PKR 1.5M in.

PKR 252K profit a month.

Paid back in about 9 months.

Thank you. Questions?
